## KeyCode Challenge

{ C<sup>U</sup>DENATION }

# Keycode Generator

DOM

These criteria **must be met**:

- > a welcome message should be displayed (in any form)
- > the generator should wait for a key to be pressed
- > once the key has been pressed, the generator should  
Report the: .code, .key & .which values
- > appropriate styling should be applied

# Example

<https://keycode.info>

DOM

91

event.key	event.location [?]	event.which (deprecated)	event.code
Meta	1 (Left-side modifier keys)	91	MetaLeft

71

event.key	event.location [?]	event.which (deprecated)	event.code
g	0 (General keys)	71	KeyG

Welcome to the Key Code Generator

Shift was pressed

ShiftLeft .code	Shift .key	16 .which
